01

Basics of Python Programming for Pharmaceutical Sciences

Author(s) : Satish A. Polshettiwar,
Sachin B. Bhoite,
Sunita Rai,
Md. Faiyazuddin

ISBN : 978-81-69617-83-3

Edition : 2026

MRP : ₹ 980.00

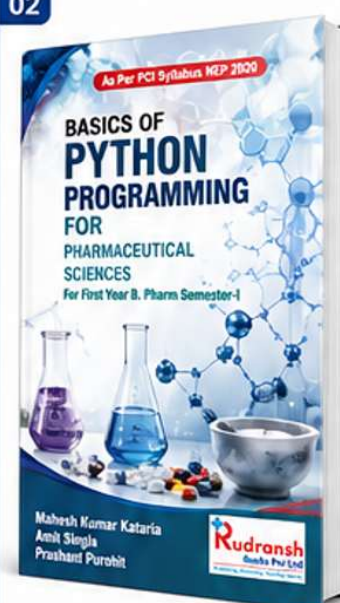

Pages : —

Print : Single Colour

Key Features

- Simplified explanation of Python basics
- Pharmacy-oriented practical examples
- As per PCI syllabus (NEP 2020)
- Easy to understand and exam focused

02

Basics of Python Programming for Pharmaceutical Sciences

Author(s) : Mahesh Kumar Kataria,
Amit Singla,
Prashant Purohit

ISBN : 978-81-69617-31-4

Edition : 2026

MRP : ₹ 275.00

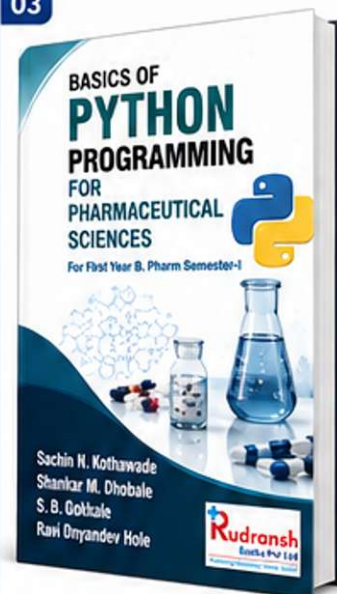

Pages : —

Print : Two Colour

Key Features

- Conceptual clarity with simple language
- Large number of solved examples
- Chapter-end exercises for practice
- As per PCI syllabus (NEP 2020)

03

Basics of Python Programming for Pharmaceutical Sciences

Author(s) : Sachin N. Kothawade,
Shankar M. Dhobale,
S. B. Gokhale,
Ravi Dnyandeve Hole

ISBN : 978-81-69617-78-9

Edition : 2026

MRP : ₹ 350.00

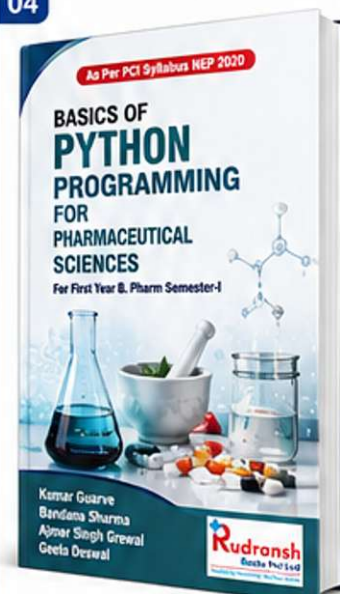

Pages : —

Print : Two Colour

Key Features

- Comprehensive coverage of topics
- Practical programs with outputs
- University exam-oriented questions
- Designed for first year B. Pharm

04

Basics of Python Programming for Pharmaceutical Sciences

Author(s) : Kumar Guarve,
Bandana Sharma,
Ajmer Singh Grewal,
Geeta Deswal

ISBN : 978-93-49865-78-5

Edition : 2026

MRP : ₹ 260.00

Pages : —

Print : Two Colour

Key Features

- Easy-to-learn Python concepts
